

COVID SAFETY PLAN

FIRE SEASON has been designed with COVID-19 safety in mind. Here are the Safety Plans we will be implementing for this experience.

WORKSITE PLAN

1. In the event of a COVID-19 outbreak or issue, we will report the event to the Los Angeles Department of Public Health via their online portal (<https://ehservices.publichealth.lacounty.gov/servlet/guest?service=0&formId=4&saveAction=5>) and telephone (888) 700-9995.
2. All Capital W staff have been trained and educated about COVID safety and risks. They will also receive a copy of this plan via email and it will be reviewed via Safety Meeting before the first audience-attended experience.
3. Capital W team members will be required and participants strongly encouraged to participate in contact tracing in the event of COVID-19 exposure. The production team will investigate to determine if any show-related factors could have contributed to the risk of transmission.
4. Only two Capital W team members are on-site at a time. In the event of an infection, both team members will be asked to isolate and inform their close contacts.
5. Tickets will not be sold on-site, but instead through online reservations. This will allow us to control the number of participants for each show, and will allow us to provide them with any and all safety information they must read and acknowledge before either purchasing a ticket or arriving onsite.
6. Any team member not in compliance with the COVID plan will be terminated. Any participant who is not in compliance will be asked to leave the experience.

EMPLOYEE TRAINING

1. CDC information on COVID-19, preventing spread, and vulnerable populations has been supplied to all team members.
2. Team members will have their temperature taken with a no-touch thermometer when arriving at the site and verbally asked if they have any

symptoms. This information will be recorded on a check-in form. Anyone who registers a temperature above 101 will be quarantined for 15 minutes and rechecked. If their temperature hasn't gone down in that time, they will be sent home. Anyone who reports or shows symptoms will be sent home.

3. Team members are hereby informed of the importance of not coming to work if they have a frequent cough, fever, difficulty breathing, chills, muscle pain, headache, sore throat, recent loss of taste or smell, or if they or someone they live with have been diagnosed with COVID-19. If the performer becomes symptomatic or is exposed, the performance will be canceled.

4. Team members are hereby advised to seek medical attention if their symptoms become severe, including but not limited to persistent pain or pressure in the chest, confusion, or bluish lips or face. Updates and further details are available on CDC's webpage.

5. Team members are hereby advised of the importance of frequent hand-washing with soap and water, including scrubbing with soap for 20 seconds (or using hand sanitizer with at least 60% ethanol or 70% isopropanol when employees cannot get to a sink or hand washing station, per CDC guidelines). Hand sanitizer meeting these specifications will be provided on-site.

6. Team members must observe physical distancing of a minimum of 6' from all others at all times.

7. Team members are required to wear masks or fabric face coverings. They are advised that

- Face coverings do not protect the wearer and are not personal protective equipment (PPE).
- Face coverings can help protect people near the wearer, but do not replace the need for physical distancing and frequent hand-washing.
- Employees should wash or sanitize hands before and after using or adjusting face coverings.
- Avoid touching the eyes, nose, and mouth.
- Face coverings should be washed after each shift. Any employee who needs a mask will be provided one by Capital W.

AUDIENCE PLAN

This information will be provided to audience members at the point of purchase. They will be required to reach and acknowledge this information in order to

purchase tickets to attend the show. Audience members are expected to do the following:

1. **Stay home if you have tested positive for or have been exposed to COVID-19, or are experiencing any symptoms related to COVID-19, including but not limited to cough, fever, and shortness of breath.** This also applies to anyone who has an asymptomatic case, or has symptoms but has not yet received test results. As we return to live performance, we ask that you err on the side of caution. If you need to stay home, Capital W will happily refund or transfer your ticket, no questions asked.
2. **Maintain at least 6' of physical distance** from performer, crew, fellow participants, and anyone you encounter on the trail who does not belong to your household.
3. **Wear a mask or cloth face covering over your nose and mouth during check-in.** Once inside the park, vaccinated audience members may remove their masks if they wish to do so.
4. **Comply with requests for information for contact tracing.** Every participant must comply with Capital W's request for basic contact information (name, phone, email address) at the point of ticket purchase. This information is to be used only in the event of an exposure to someone with COVID-19. Though we will take every precaution to prevent such an exposure, contact tracing allows us to help mitigate a wide-spread transmission.

When audience members arrive on site:

1. Audience members will check-in at the ticketing table. They will have their temperature taken with a no-touch thermometer and asked to assert that they do not have a fever or any known COVID-19 symptoms. If they report symptoms or have a temperature of 101 or higher, they will be sent home.
2. Audience members will be verbally reminded to keep 6 feet from others and wear their mask at check-in. Signage at the check-in table will also relay this message.
3. We will provide hand sanitizer at the check-in table for audience use.
4. Anyone who does not comply with any COVID-protocols at any point before, during, or after the show will be asked to leave.
